ABOUT CONFERENCE

It is proposed to organize the International Conference on Vibration Engineering, Science, and Technology (INVEST 22) through the joint efforts of Council of Vibration Specialists (CVS) and Fr. C. Rodrigues Institute of Technology, Vashi, Navi Mumbai, INDIA (FCRIT). The conference will be held at FCRIT Vashi in physical mode on December 9-10, 2022. The deliberations in INVEST 22 will emphasize on the thrust areas from the field of vibrations. All the papers orally presented in the Conference will be submitted for inclusion into Lecture Notes in Mechanical Engineering (proposed) which is a SCOPUS indexed digital library. The conference committee has also instituted the Best Paper Award (open to all) and Young Researcher Award (for students) in each theme of INVEST 22 to appreciate the hard work and dedication of the researchers towards carrying out novel research. The conference will also felicitate outstanding Vibration Experts.

ABOUT CVS

Council of Vibration Specialists (CVS), a non-profit organization (first of its kind in the country exclusively on Vibration) has been formed by some expert professionals dedicated to Vibration Science and Engineering, both from academia and industry, in order to scale up the reach of this inter-disciplinary specialization. There could be need to address design-reviews/reengineering in systems/components from the site-experiences of vibration-induced flaws, to bring an awareness in every industry on huge energy-savings possibilities from machines with undesired high vibration and to speed up the vibration diagnostics and prognostics mechanism to a higher level of accuracy through the effective management of vibration knowledge, empowering the engineers with necessary world-class skills and theoretical inputs along with specialized certifications on Vibration.

ABOUT FCRIT

Fr. C. Rodrigues Institute of Technology (FCRIT) was established in 1994 in the heart of Navi Mumbai, Vashi, as a part of Agnel Technical Education Complex. The aim of the Institute is to provide quality technical education in addition to inculcating moral values in its students. Apart from academic excellence, the campus is also reputed for its extensive facilities that have led to it being awarded an "A" grade by the Directorate of Technical Education, Maharashtra, right from its inception. The institute is affiliated to the Mumbai University and offers five undergraduate engineering programmes, namely Computer, Mechanical, Electronics & Telecommunication, Electrical, and Information Technology, and three postgraduate engineering programmes. The institute is also a Mumbai University approved PG study & Research Centre in the three engineering disciplines of Mechanical, Electronics & Telecommunication, and Electrical.
